

2025 The 8th International Conference on Food and Agriculture (IcoFA 2025)

25 October 2025, Online Conference
(Hosted by P3M Politeknik Negeri Jember, Indonesia)

Preface

The 8th International Conference on Food and Agriculture (ICoFA 2025) is organized by Politeknik Negeri Jember, Indonesia, as a scientific forum to bring together researchers, academics, practitioners, and policymakers in the fields of food and agriculture. The conference aims to provide a platform for sharing recent research findings, exchanging ideas, and fostering collaboration at both national and international levels.

The main theme of ICoFA 2025, “Resilient Innovations in Food, Agriculture, Biotechnology, and Bioeconomy,” reflects the growing need for sustainable and innovative solutions to address global challenges in food security, agricultural productivity, and environmental sustainability. All submitted papers have undergone a peer-review process conducted by qualified reviewers to ensure scientific quality and relevance.

On behalf of the organizing committee, we would like to express our sincere gratitude to all authors, reviewers, keynote speakers, and committee members for their valuable contributions. We hope that the ICoFA 2025 proceedings will serve as a useful reference for future research.

Chair of ICoFA 2025

Politeknik Negeri Jember, Indonesia
