The first year in Table 6 should be 1994 and not 1995. The 1994 Port wine vintage was classified as ‘monumental’ whereas 1995 was not even classified as a vintage year by the Port and Douro Wines Institute (IVDP), as it can be observed at <https://www.ivdp.pt/pagina.asp?idioma=1&codPag=98&>

The table should be displayed then as follows:

Table 6. Top quality and regular vintages from the climate perspective: positive factors are displayed in green cells whereas negative ones in orange.
