ICGAB 2023, the 7th International Conference on Green Agro-Industry and Bioeconomy was held as a hybrid conference on 24th October 2023 in Malang-Indonesia. ICGAB 2023 was organised by the Faculty of Agricultural Technology, Universitas Brawijaya (FAT-UB). The event was co-hosted by Universiti Putra Malaya and supported by AUCFA (ASEAN Universities Consortium on Food and Agro-based Engineering and Technology Education), IAAET (International Association of Agro-based Engineering and Technology), PATPI (Indonesian Association of Food Technologist), PERTETA (Indonesian Society of Agricultural Engineering), APTA (Indonesian Society of Agricultural Technologist), FKPTI (Forum Komunikasi Perguruan Tinggi Teknologi Pertanian Indonesia), P4I (Pusat Penelitian dan Pengembangan Porang Indonesia). This year's conference is aimed to bring together researchers, academics, industry experts, policymakers, and practitioners from around the world to exchange knowledge, ideas, and best practices in green agro-industry and bioeconomy. Participants will have the opportunity to present their latest research findings, share their experiences and insights, and network with peers and stakeholders. The conference successfully attracted 300 participants from Indonesia, Malaysia, the Philippines, and Japan. In total, five plenary talks and about 180 contributed parallel talks were given. The scientific program included the following topics:

1. Food safety and security
2. Agricultural engineering
3. Food and Agricultural product technology
4. Agro-industrial production system management and regulation
5. Renewable energy and biorefinery
6. Waste and environmental management
7. Food biotechnology and bioprocess Engineering
8. Food microbiology
9. Agroforestry and biodiversity
10. Fisheries and marine technology
11. Bioeconomy in agricultural and food science

The contents of the talks can be found in the present contributions, arranged according to the topics. All the manuscripts were double-blind peer-reviewed arranged by the editorial committee to meet the scientific standards expected of publication in Bio Web of Conference Proceedings. We would like to extend our acknowledgment to the reviewers who provided their valuable comments and suggestions. Our gratitude also towards the authors for their trust and contributions. We are grateful towards the Bio Web of Conference for their on-going support for the publication of the proceedings. We would also like to thank the committees for their contributions and help – without whom we would not have been able to organise this event. Finally, we are grateful
