

PREFACE

It is with great honor and enthusiasm that we extend a warm welcome to all participants, scholars, and researchers attending the 14th International Conference on Global Resource Conservation (ICGRC) in 2023. This significant gathering convenes under the theme "Accelerating Global Biodiversity Conservation Through Innovative Technology," aiming to delve into the pivotal role of cutting-edge technologies in expediting global efforts towards biodiversity preservation.

As the world faces escalating challenges related to the conservation of our planet's diverse ecosystems, this conference provides a crucial platform for intellectual exchange, fostering dialogue among scientists, policymakers, and practitioners. The diverse array of topics covered in the proceedings reflects a collective commitment to exploring innovative technological solutions that can contribute to the acceleration of global biodiversity conservation.

The papers presented at this conference encapsulate a wealth of knowledge, insights, and research findings that showcase the latest advancements in the field. By sharing these contributions, we aspire to deepen our collective understanding and forge pathways towards sustainable conservation practices that harness the power of innovation.

In expressing our deepest gratitude, we would like to extend our thanks to the dedicated participants and authors who have generously shared their expertise and research. Additionally, our heartfelt appreciation goes to the diligent reviewers whose meticulous evaluation has significantly contributed to maintaining the academic rigour of the conference proceedings.

Finally, we extend our sincere appreciation to our publishing partner, Bio Web of Conferences, for their invaluable support in bringing these proceedings to fruition. Their commitment to scholarly dissemination has played a crucial role in ensuring that the knowledge generated during this conference reaches a wider academic audience.

In closing, we express our profound gratitude to everyone involved in making the 14th ICGRC a resounding success. Your collective efforts and dedication contribute significantly to the advancement of knowledge and the promotion of sustainable practices in global resource conservation.

Sincerely,

Editor in Chief
Dian Siswanto, Ph.D.
