

Preface

We warmly welcome all authors of the 5th International Conference on Life Sciences and Biotechnology (5th ICOLIB) published in the BIO Web of Conference proceedings.

The conference was held on September 12th and 13th, 2023, at the Biology Department, Faculty of Mathematics and Science, University of Jember. This conference covers a wide range of life sciences and biotechnology topics, including environmental sciences, medical and pharmaceutical sciences, renewable energy, agricultural science, food science, bioinformatics, breeding, biodiversity, and conservation biology.

Our internal editor has reviewed a total of 65 articles through the peer-review process by the editorial committee for scientific publication. The 5th ICOLIB implemented a journal management system using OJS for all steps, including submission, peer review, and editing. A total of 27 selected papers were published in the BIO Web of Conferences. The paper grouped into four main sub topic i.e. Applied Science, Basic Science, Biodiversity & Conservation, and Health & Medicine.

We express our sincere appreciation to the expert reviewers who evaluated the selected articles and significantly contributed to maintaining the academic rigor of the conference proceedings. We also thank the authors who generously shared their expertise and knowledge.

On behalf of the internal editor, I would like to thank our external editor Prof. Inocencio E Buot, Jr. and Dr.rer.nat. Arif Lukman for their support during the review process. I am particularly grateful to the Rector of the University of Jember and the Dean of the Mathematics and Natural Sciences Faculty, as well as the organizing committee members, for their excellent teamwork that has led to the publication of these proceedings..

Sincerely,
Mukhamad Su'udi, Ph.D
Editor in Chief
