

Preface
Local Conference Coordinator

Distinguished guests, speakers, and participants of the SAFE2024 Conference,

I am deeply honored and excited to welcome you to the SAFE2024 International Conference on Sustainable Agriculture, Food, and Energy on June 28, 2024, in Jeju (South Korea). The conference theme is Circular Economy Implementation in Agri-food Energy Production for Community Empowerment. The core principle of a circular economy is around the minimization of waste, the promotion of sustainability, and the optimization of resource utilization. When included in the generation of energy in the agricultural and food sectors, it has the potential to establish a system that is more resistant to disruptions and capable of maintaining itself. This is an example of how the implementation could appear. By incorporating the ideas of the circular economy into agri-food energy production, communities can experience improved resilience, decreased environmental harm, and higher economic prospects, ultimately leading to empowerment and sustainable development.

SAFE2024 is a platform to bring together experts, researchers, and practitioners from various disciplines to discuss, share knowledge, and collaborate for a safer and more sustainable future. We believe that through this conference, we can find innovative and practical solutions to the challenges we face in Sustainable Agriculture, Food, and Energy.

As the Local Conference Coordinator, I extend my deepest gratitude to everyone who has contributed to organizing this conference. Thank you to our esteemed speakers for sharing their valuable knowledge and insights. We thank our partners for their unwavering support in making this event possible.

I would also like to acknowledge the hard work and dedication of the organizing committee and volunteers who have worked tirelessly to ensure everything runs smoothly. Without your efforts, this event would not have been possible.

To all participants, we hope you make the most of this opportunity to learn, exchange ideas, and expand your professional networks. We trust that you will gain new inspiration and valuable insights from the various sessions we have prepared.

In conclusion, I warmly welcome you and wish you an engaging and productive time at the SAFE2024 Conference. Let us together create fruitful discussions and beneficial collaborations for our collective advancement.

Enjoy Jeju Island!
